

Lifting & Transfer Assistance Policy

Effective Date: June 1, 2026 | Version 1.0

Purpose

This policy establishes clear boundaries regarding physical assistance provided to clients. It is designed to protect both clients and staff from injury, and to clearly distinguish Good Company's non-medical service model from skilled or medical care.

Scope of Service

Good Company provides non-medical companion services to ambulatory senior clients only. "Ambulatory" means the client can walk, stand, sit, and transition between positions independently, with or without the use of assistive devices (cane, walker, etc.).

Prohibited Activities

Good Company staff DO NOT provide the following services:

- Physical lifting of clients
- Transfer assistance from bed to chair, chair to wheelchair, or bath/shower transfers
- Weight-bearing support during ambulation
- Assistance to clients after a fall (call 911 immediately)
- Use of mechanical lifts, transfer boards, or gait belts
- Any service requiring physical support of a client's body weight

Permitted Incidental Assistance

Good Company staff MAY provide the following minor, non-weight-bearing assistance:

- Offering an arm for balance support
- Opening doors and briefly steadying the client
- Loading and unloading mobility aids (canes, walkers) from vehicles
- Providing verbal cues for direction or positioning
- Assisting with seat belts upon request
- Holding doors and offering a guiding hand

Client Screening

Prospective clients are evaluated during the initial complimentary visit. Indicators that a client requires a higher level of care than Good Company provides include:

- Inability to stand from a seated position without significant assistance
- Inability to walk across a room without weight-bearing support
- Wheelchair dependence with inability to self-transfer
- Recent history of falls (within the past 30 days)
- Recommendation from medical provider for skilled home health care

In the Event of a Fall

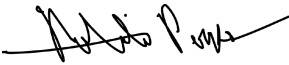

Good Company staff will NOT attempt to physically lift a fallen client. The following procedure is followed:

1. Call 911 immediately if the client is injured or unable to get up on their own
2. Stay with the client and provide reassurance
3. Notify the client's designated emergency contact
4. Do not move the client unless they are in immediate danger
5. Document the incident in writing including time, location, and circumstances
6. Notify the Good Company owner within 1 hour

Policy Review

This policy is reviewed annually and updated as service offerings change. All staff (current and future) are required to read, understand, and acknowledge this policy before providing services to clients.
