

Emergency Response Policy

Effective Date: June 1, 2026 | Version 1.0

Purpose

This policy establishes procedures for responding to emergencies that occur during the provision of services. The safety of clients and staff is the highest priority in all circumstances.

Definition of an Emergency

An emergency is any situation that poses an immediate threat to the health, safety, or wellbeing of a client or staff member. Emergencies include but are not limited to:

- Medical emergencies (chest pain, stroke symptoms, breathing difficulty, severe injury)
- Falls or injuries
- Fire, smoke, or carbon monoxide alarms
- Suspected gas leak
- Severe weather (tornado, severe storm)
- Suspected break-in or threatening person at the residence
- Sudden cognitive changes (confusion, disorientation, inability to recognize surroundings)

Medical Emergency Procedures

1. Call 911 immediately. Do not delay to call any other party first.
2. Stay with the client. Provide reassurance and basic comfort.
3. Do not administer any medications or medical interventions beyond what 911 dispatch instructs.
4. Unlock the front door so emergency responders can enter without delay.
5. Gather the client's medication list, emergency contacts, and any relevant medical information to share with paramedics.
6. Notify the client's designated emergency contact as soon as 911 has arrived and the client is being attended to.
7. Document the incident in detail, including time, symptoms observed, actions taken, and outcome.
8. Notify the Good Company owner within 1 hour of the emergency, or as soon as practical.

Fire or Carbon Monoxide Alarm

9. Assist the client in evacuating to a safe location outside the home, only if it can be done safely without lifting or transfer assistance.

10. If the client cannot be safely evacuated, get yourself to safety and notify 911 of the client's location.
11. Call 911 once safely outside.
12. Do not re-enter the home until cleared by emergency responders.
13. Notify the client's emergency contact and the Good Company owner.

Severe Weather

14. Move with the client to the safest interior room of the home (basement, bathroom, interior closet).
15. Stay away from windows.
16. Monitor weather alerts on a phone or radio.
17. Remain with the client until the threat has passed.
18. Notify the client's emergency contact as soon as it is safe to do so.

Security or Threatening Persons

19. Do not engage with a threatening or unknown person at the residence, unless needed for safety or defense purposes.
20. Move with the client to a secure location in the home and lock doors if possible.
21. Call 911.
22. Do not open the door to unknown persons.
23. Notify the client's emergency contact once safe.

Motor Vehicle Accident During Transportation

24. Ensure your own safety first.
25. Check on the client and call 911 if anyone is injured.
26. Stay at the scene as required by law.
27. Exchange information with the other party (insurance, contact details).
28. Photograph the scene.
29. Notify the client's emergency contact.
30. Notify the Good Company owner immediately.
31. Notify Good Company's commercial auto insurance carrier as soon as possible.

Required Emergency Contact Information

Before services begin, Good Company will collect the following information from each client:

- Primary emergency contact (name, relationship, phone)
- Secondary emergency contact (name, relationship, phone)
- Primary care physician (name, phone)
- Preferred hospital
- Current medication list

- Known allergies
- Relevant medical conditions

Incident Documentation

All emergencies must be documented in writing within 24 hours of occurrence. Documentation includes:

- Date and time of incident
- Location
- Description of what happened
- Actions taken in response
- Persons notified and at what time
- Outcome and follow-up actions
- Signature of staff member completing the report

Policy Review

This policy is reviewed annually. All staff members are required to read and acknowledge this policy before providing services to clients.
