

Client Acceptance & Screening Policy

Effective Date: June 1, 2026 | Version 1.0

Purpose

This policy establishes the criteria and process for evaluating prospective clients to determine whether Good Company's services are an appropriate match for the client's needs. Proper screening protects clients from receiving inappropriate care and protects Good Company from operating outside its scope of service.

Initial Consultation

Every prospective client receives a complimentary in-person consultation before services begin. The consultation includes:

- A conversation about the client's needs, routines, and preferences
- Observation of the client's mobility, cognition, and home environment
- Discussion of services Good Company can and cannot provide
- Review of pricing, scheduling, and service agreement
- Question and answer time for the client and family

Acceptance Criteria

Good Company accepts clients who meet the following criteria:

- Resides within Good Company's service area (Shelby Township, Washington Township, Rochester Hills, MI)
- Is ambulatory (able to walk, stand, and transfer independently with or without assistive devices)
- Cognitively able to consent to receiving services, OR has a designated decision-maker (POA, family member, or guardian) who can consent on their behalf
- Living environment is safe for staff to enter and work in
- Family/decision-maker is willing to sign the service agreement
- Family/decision-maker provides accurate emergency contact information

Conditions That May Disqualify a Prospective Client

Good Company may decline to accept a client when the following circumstances are present:

- Client requires physical transfer assistance, lifting, or weight-bearing support
- Client requires medication administration (beyond verbal reminders)
- Client requires skilled nursing care or medical procedures

- Client has untreated active behavioral health conditions that pose risk to staff
- Client has a history of violence toward caregivers
- Home environment presents safety hazards that cannot be reasonably mitigated
- Active substance abuse situation in the home
- Presence of unrestrained aggressive pets
- Family is unwilling to provide required information or sign the service agreement
- Client's needs are outside Good Company's scope of service

Referral to Other Providers

When a prospective client is not a fit for Good Company's services, the family will be provided with information about alternative providers, such as:

- Certified home health agencies (for skilled nursing or transfer assistance)
- Licensed personal care services (for hands-on personal care)
- Adult day programs (for cognitive support and socialization)
- Wheelchair-accessible transportation services
- Hospice or palliative care providers (where appropriate)

Ongoing Assessment

Client needs may change over time. Staff observes each client's status during every visit and will report changes to the Good Company owner. When a client's needs evolve beyond Good Company's scope of service, the family will be notified and assistance with transition to an appropriate provider will be offered.

Trial Period

The first 30 days of service serve as a trial period. Either party (Good Company or the client/family) may terminate services during this period with 7 days' notice for any reason.

Documentation

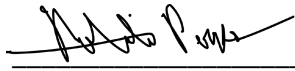

Each prospective client consultation is documented, including:

- Date of consultation
- Names of persons present
- Summary of needs discussed
- Acceptance decision and rationale
- Referrals provided (if applicable)
- Signed service agreement (if accepted)

Policy Review

This policy is reviewed annually and updated as needed. All staff members are required to read and acknowledge this policy.
